The purpose of the University of Navarra Emergency Protocol is to establish policies, procedures, roles and responsibilities and a structural response to a major threat or disastrous event. It assigns roles and responsibilities to departments and units that are responsible for handling emergencies and providing support services, and provides structure for utilizing resources.

Information data from students

At the time of registration, the student should provide at least one emergency contact person (full name, telephone, email and relationship). Additionally, international students should provide a health insurance policy. It is highly recommended that the student shares this health insurance information with any relatives or flat mates.
Levels of crisis

This document establishes the different levels of crisis considering the gravity and complexity of every situation. Depending on these two factors, the units and actions involved in the emergency response would be handled accordingly.
